## **Field Safety Notice - Powiadomienie klientów dotyczące wyrobu medycznego Urządzenie do zamykania uszka lewego przedsionka WATCHMAN<sup>®</sup> wraz z systemem aplikacji oraz System dostępu WATCHMAN<sup>®</sup> Osłonka dostępowa z rozszerzaczem**

Firma Boston Scientific (BSC) niniejszym wydaje komunikat dotyczący bezpieczeństwa stosowania produktu dla technologii WATCHMAN, obejmującej urządzenie do zamykania uszka lewego przedsionka WATCHMAN (LAA) wraz z systemem aplikacji oraz systemem dostępu WATCHMAN.

Firma BSC wykryła możliwość uszkodzenia gwintu zastawki hemostatycznej podczas dokręcania zastawki przy rozszerzaczach znajdującym się na swoim miejscu, co potencjalnie uniemożliwia późniejsze uszczelnienie zastawki, jeżeli zachodzi taka potrzeba. Komunikat dotyczący bezpieczeństwa stosowania produktu uzupełnia istniejące instrukcje użycia (DFU) i zawiera dodatkowe wskazówki odnośnie prawidłowego użycia zastawki hemostatycznej w celu niedopuszczenia do uszkodzenia gwintu, a także w celu prawidłowego uszczelnienia zaworu i minimalizacji ryzyka niepożądanego przecieku krwi.

**Nie są wycofywane żadne produkty i nie ma konieczności zwracania produktów do firmy Boston Scientific.**

**Należy zauważyć, że komunikat nie dotyczy wcześniej wszczepionych urządzeń.**

### **Wymagane działania**

Bardzo ważne jest przeczytanie w całości niniejszego komunikatu dotyczącego bezpieczeństwa stosowania produktu i zapewnienie, że wszyscy użytkownicy urządzenia do zamykania uszka lewego przedsionka (LAA) WATCHMAN wraz z systemem aplikacji oraz systemem dostępu WATCHMAN zostali zaznajomieni z niniejszym komunikatem dotyczącym bezpieczeństwa stosowania produktu (prosimy zapoznać się z dołączoną listą produktów, których dotyczy komunikat). **Konieczne jest również wypełnienie dołączonego formularza potwierdzenia i zwrócenie go do firmy Boston Scientific w celu potwierdzenia przeczytania i zrozumienia ważnych informacji zawartych we wspomnianym komunikacie dotyczącym bezpieczeństwa stosowania produktu.**

### **Zaktualizowane instrukcje użycia**

Poniższe części instrukcji użycia (DFU) urządzenia do zamykania uszka lewego przedsionka (LAA) WATCHMAN wraz z systemem aplikacji oraz systemem dostępu WATCHMAN objaśniają prawidłowe użycie zastawki hemostatycznej oraz współdziałanie osłonki dostępowej i rozszerzacza. Tekst dodany do bieżących instrukcji użycia (DFU) jest wyróżniony **kolorem niebieskim**:

- Strona 1 z 3 -

**Dotyczy instrukcji użycia urządzenia zamykającego uszko lewego przedsionka serca  
WATCHMAN z systemem wprowadzania oraz instrukcji użycia systemu dostępu WATCHMAN:**

3. Przygotować system dostępu WATCHMAN.

*Uwaga: Przed użyciem należy sprawdzić jałowe opakowanie oraz system dostępu WATCHMAN. NIE UŻYWAĆ, jeżeli jałowe opakowanie zostało w jakikolwiek sposób uszkodzone.*

- A. W warunkach jałowych wyjąć koszulkę do dostępu z rozszerzaczem.
- B. Przed użyciem sprawdzić pod kątem uszkodzeń.
- C. Przed użyciem przepłukać koszulkę do dostępu z rozszerzaczem solą fizjologiczną.
- D. Umieścić rozszerzacz w zastawce hemostatycznej koszulki do dostępu.

*Uwaga: Nie należy zaciskać zastawki hemostatycznej, gdy rozszerzacz jest wprowadzony do systemu dostępu WATCHMAN. Rozszerzacz zamyka kanał systemu dostępu WATCHMAN, tworząc hemostazę. Zaciśnięcie zastawki na rozszerzacz może spowodować uszkodzenie jej gwintów. Skutkiem tego mogą być trudności z zamknięciem zastawki i niedokładne szczelnienie po wyjęciu rozszerzacza.*

4. Doprowadzić system dostępu WATCHMAN po przewodniku do lewego przedsionka (LA, left atrium). Gdy koszulka do dostępu zbliży się do środka LA, przytrzymać rozszerzacz i doprowadzić koszulkę do dostępu w początkowe położenie w LA lub ujściu LUPV.

*Uwaga: Podczas wprowadzania systemu dostępu WATCHMAN należy zachować ostrożność, aby uniknąć uszkodzenia struktur sercowych.*

5. Wyjąć rozszerzacz i przewodnik, pozostawiając koszulkę do dostępu. Przed zaciśnięciem zastawki umożliwić wsteczny przepływ krwi, aby ograniczyć możliwość wprowadzenia powietrza. Przepłukać solą fizjologiczną.

*Jeśli po wyjęciu rozszerzacza nadal obserwuje się wsteczny przepływ krwi z zastawki pomimo prób jego zamknięcia, poluzować nasadkę zastawki (obracając w kierunku przeciwnym do ruchu wskazówek zegara), aż będzie się ona swobodnie obracać. Następnie ponowić próbę zamknięcia zastawki, dociskając delikatnie w przód nasadkę zastawki podczas zamykania (obroty w kierunku zgodnym z ruchem wskazówek zegara), aby zapewnić prawidłowe dopasowanie gwintu zastawki. Podczas wykonywania tych czynności zaleca się zamknięcie otworu zastawki palcem w rękawiczce, aby zminimalizować utratę krwi.*

*Uwaga: W razie potrzeby czynności te można powtórzyć. Jednak jeśli nie spowoduje to zmniejszenia wycieku krwi, użytkownik powinien przed kontynuowaniem zabiegu wyjąć i wymienić koszulkę do dostępu WATCHMAN.*

*(Należy nadal postępować zgodnie z instrukcjami zawartymi w obecnych instrukcjach użycia)*

**Dotyczy wyłącznie instrukcji użycia urządzenia zamykającego uszko lewego przedsionka serca  
WATCHMAN z systemem wprowadzania:**

8. Przed założeniem systemu wprowadzania poluzować proksymalną zastawkę koszulki do dostępu, umożliwiając wsteczny przepływ krwi. *Uwaga: Zastawka hemostatyczna powinna swobodnie się obracać (powinna być całkowicie otwarta).*

*Uwaga: Zaciśnięcie zastawki na systemie wprowadzania WATCHMAN może spowodować uszkodzenie jej gwintów. Skutkiem tego mogą być trudności z zamknięciem zastawki i niedokładne szczelnienie po wyjęciu systemu wprowadzania WATCHMAN.*

*(Należy nadal postępować zgodnie z instrukcjami zawartymi w obecnych instrukcjach użycia)*

Według naszej dokumentacji, Państwa placówka otrzymała jeden lub kilka produktów objętych niniejszym komunikatem dotyczącym bezpieczeństwa stosowania produktu. **Poniższa tabela zawiera pełną listę produktów objętych komunikatem**, wraz z opisem produktu, numerem materiału (UPN), numerami serii/partii oraz terminem ważności. **Prosimy pamiętać, że komunikat dotyczy tylko produktów wyszczególnionych w poniższej tabeli.**

**Niniejszy komunikat dotyczący bezpieczeństwa stosowania produktu nie obejmuje żadnych innych produktów firmy Boston Scientific.**

Opis produktu	Numer materiału (UPN)	Seria	Termin ważności
WATCHMAN® Left Atrial Appendage Closure Device with Delivery System	M635WS21060	Lista w załączeniu	
	M635WS24060		
	M635WS27060

## **INSTRUKCJE:**

1- **Prosimy uważnie przeczytać niniejszy komunikat dotyczący bezpieczeństwa stosowania produktu i niezwłocznie umieścić go w widocznym miejscu w pobliżu produktu, aby zapewnić wszystkim użytkownikom urządzenia łatwy dostęp do tej informacji.**

2- **Prosimy wypełnić załączony formularz potwierdzenia nawet, jeśli nie posiadają Państwo jakichkolwiek produktów objętych komunikatem.**

3- **Po wypełnieniu, prosimy zwrócić formularz potwierdzenia do lokalnego biura firmy Boston Scientific, na numer - Faks: 22 435 1410 nie później niż do dnia 15 września 2015.**

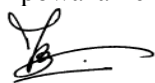

4- Prosimy przekazać niniejszy komunikat całemu personelowi medycznemu placówki, który musi posiadać tego typu wiedzę, oraz wszelkim placówkom, do których przekazano urządzenia mogące być objęte komunikatem (jeżeli ma to zastosowanie). Prosimy o dostarczenie firmie Boston Scientific szczegółowych informacji dotyczących urządzeń objętych komunikatem, które zostały przekazane innym placówkom (jeżeli ma to zastosowanie).

Pomimo, że firma Boston Scientific nie prowadzi fizycznego wycofywania jakichkolwiek produktów, o niniejszym komunikacie dotyczącym bezpieczeństwa stosowania produktu poinformowane zostały stosowne organa administracyjne, właściwe dla Państwa placówki.

Przepraszamy za wszelkie niedogodności związane ze wspomnianymi czynnościami i dziękujemy za Państwa zrozumienie, gdyż działania te podejmujemy w celu zapewnienia bezpieczeństwa pacjentów i satysfakcji klienta.

Jeżeli mają Państwo jakiegokolwiek pytania lub potrzebują pomocy odnośnie niniejszego komunikatu dotyczącego bezpieczeństwa stosowania produktu, prosimy skontaktować się z lokalnym przedstawicielem handlowym.

Z poważaniem

Marie Pierre Barlangua  
Dział Jakości  
Boston Scientific International S.A.
