

## **PILNA Notatka Bezpieczeństwa**

### ***Dotyczy wszystkich serii soczewki wewnątrzgałkowej Preloaded EyeCee One***

30.01.2023

Szanowni Państwo,

Przekazujemy Państwu Notatkę Bezpieczeństwa dotyczącą wszystkich serii soczewek wewnątrzgałkowych EyeCee One produkowanych przez firmę NIDEK a dystrybuowanych przez firmę Bausch + Lomb. Lista soczewek, których dotyczy ten problem, znajduje się w załączniku A.

Firma NIDEK opracowała niniejszą Notatkę Bezpieczeństwa we współpracy z firmą Bausch + Lomb, w związku z otrzymaniem pewnej liczby zgłoszeń dotyczących wysokiego ciśnienia ocznego u pacjentów, którym wszczepiono jedną z tych soczewek.

Dotychczasowe wstępne badania nie wykazały związku pomiędzy soczewkami Preloaded EyeCee One a doniesieniami o wysokim ciśnieniu ocznym. Nie zidentyfikowano również pierwotnej przyczyny tej sytuacji. Firmy NIDEK oraz Bausch + Lomb nadal badają problem, aby definitywnie ustalić przyczynę zgłoszeń oraz określić czy jest ona związana z tymi wyrobami.

#### **Prosimy o natychmiastowe podjęcie poniższych działań:**

1. Zaprzestań używania produktów, których dotyczy problem (pełna lista produktów znajduje się w załączniku A).
2. Poddaj kwarantannie wszystkie te soczewki wewnątrzgałkowe do odwołania
3. Przekaż niezwłocznie te informacje wszystkim odbiorcom, którzy mogli również dystrybuować soczewki, których dotyczy problem.

Firma NIDEK poinformowała Agencje ds. Zdrowia o swoich działaniach.

Po zakończeniu wyjaśniania zaistniałej sytuacji firma NIDEK przekaze informacje dotyczące prowadzonego dochodzenia oraz kolejne instrukcje dotyczące produktów objętych kwarantanną.

Obu firmom zależy na zapewnieniu bezpieczeństwa pacjentów. Dziękujemy za szybkie zwrócenia uwagi na problem.

Dziękujemy za cierpliwość i przepraszamy za wszelkie niedogodności związane z tą sytuacją. W międzyczasie, jeśli macie Państwo jakiegokolwiek pytania dotyczące problemu, prosimy o kontakt z lokalnym przedstawicielem handlowym firmy NIDEK:
